World Vision of Australia

Mission

Serving Christ we commit ourselves to engaging people in transforming lives by alleviating poverty and confronting its causes.

Activities

World Vision stands for freedom, justice, peace and opportunity for everyone in the world.

World Vision Australia is part of an international partnership with offices in many countries. We're all dedicated to improving the lives of children, families and communities living in poverty.

As well as providing relief in emergency situations, we work on long-term development projects that address the causes of poverty and help communities to move to a level of self sufficiency.
