

Director - Programs and Services

- **Make a difference for diabetes!**
- **Career development opportunity**
- **Nursing, Allied Health, or Health Program Manager?**

Diabetes Australia - Vic (DA-Vic) is the leading charity & peak consumer body representing & supporting over 220,000 people affected by diabetes & those at risk. Committed to improving the quality of life of all people affected by diabetes, DA-Vic leads a range of state-wide programs in diabetes care, management & prevention. These include diabetes self management & education programs, the Life! Program (statewide diabetes prevention), telephone health coaching, social marketing, peer support, ATSI & CALD programs.

This role oversees around 50 staff & a budget of over \$5 million per year & will be responsible for developing & maintaining relationships with collaboration partners including general practice, primary, secondary & tertiary care organisations, universities & research partners, government programs including WorkHealth, & other partners. This role will report to the CEO & be part of the senior management team. You will:

- **be rewarded with an excellent remuneration package including packaging benefits**
- **provide leadership & direction across diabetes management & prevention programs with both a strategic & operational focus**
- **have strong program management experience in the health sector**
- **bring years of experience in leading & managing multidisciplinary teams in the health sector**
- **you may come from a nursing, allied health or prevention health promotion background**

Apply today for a fantastic career opportunity and improve the quality of life for people affected by diabetes!
